

Texas League Play

Welcome to Texas League Play. This manual will guide you using Golf Genius – Team Matches, where you will set up your home course, enter your team roster, submit your match lineups, and post results. The software is easy to use and is linked directly to the GHIN handicap system, so all handicap calculations are accurate and easy for the team captain or pro to use.

All team captains must submit rosters and results through the Team Captain Portal. Please do not hesitate to contact TGA Staff Contact with any questions regarding the portal. We ask that captains do not reach out to Golf Genius directly or click the help icon within golf genius for assistance.

This is a great option for Texas League Play and can serve in place of physical scorecards. If a team is electing to use Mobile Score Entry, captains will need to locate the group specific GGID for that match and pairings.

To locate the specific group GGID, click on the Team Captain Menu icon and under 'Pairings & Scoring' click 'Edit Course & Tee Assignments'.

Once on the pairings page you will be able to click the box to show GGIDs. These will be the specific GGIDs used for each group when utilizing Mobile Score Entry.
