

Youth on Course

The Texas Golf Association Foundation launched the Youth on Course program in the San Antonio area in 2020, and in 2021 expanded to include DFW and Austin. Today, the Youth on Course program is all over Texas giving juniors access to play golf for \$5 or less at courses all over the state!

Youth on Course is a 501(c)3 nonprofit organization that provides youth with access to life-changing opportunities through golf. Members have the opportunity to participate in a variety of programs as juniors and be a part of an Alumni Network for those 19 and older. The Alumni Network offers opportunities

for young adults to connect at complementary events, find jobs, and much more.

Golf inherently offers an opportunity to get outdoors and be active while teaching invaluable lessons, and promoting character development. With over \$105,000 paid in round subsidies in 2023, we ensured that juniors had access to affordable golf experiences, enabling them to hone their skills and cultivate their passion for the game. Youth on Course serves as a vital next step from introductory lessons at First Tee, LPGA Junior Golf, and PGA Junior League, complementing the clinics offered by giving them the much needed on-course time to apply what they've learned.
